

## Our tools - People First™

People First™ is our unique suite of web-enabled people-planning tools which optimizes organizational development. People First™ utilizes a systematic approach which enables your commercial organization to deliver against business priorities through effective organizational design and competency development. People First™ ensures that your organization:

- Aligns processes that are strategically important to the business with the roles performed within the commercial teams.
- Optimizes resource utilization and reduces task duplication within and across the commercial teams.
- Creates coherent links between commercial roles and technical competencies.
- Enables your business to focus the development of teams and individuals on areas that will deliver greatest return.
- Describes clear paths for personal and organizational growth.
